DE DESCARGAS

ES

SAHECO ofrece soluciones integrales para todos sus tipos de puerta, es por este motivo que dispone de diversos modelos de cerradura en aluminio anodizado y cromadas como solución de cerramiento para puertas correderas de vidrio; aptas para grosores de vidrio de 8 a 10mm.

Asimismo, también existe la posibilidad de instalación con cerrador en el caso de tratarse de hojas correderas opuestas. Sistemas sencillos y funcionales, adaptables a cualquier tipo de ambiente.

EN

SAHECO offers comprehensive solutions for all your door types, which is why it has different lock models available in anodised aluminum and chrome as a locking solution for sliding glass doors; suitable for glass with a thickness of 8-10 mm.

In addition, there is also the possibility of installing with a fastener in the case of opposing sliding panels. Simple and functional systems that are adaptable to any type of environment.

FR

SAHECO offre des solutions intégrales pour tous vos types de portes. Nous disposons ainsi de plusieurs modèles de serrures en aluminium anodisé et de modèles chromés pour la fermeture des portes coulissantes vitrées. Adaptées à des épaisseurs de verre de 8 à 10mm.

Il est également possible de prévoir une installation avec gâche dans le cas de panneaux coulissants opposés. Des systèmes simples et fonctionnels qui s'adaptent à n'importe quel espace.

Technical drawing of the front view of a rectangular metal plate. The overall dimensions are 100 mm in width and 155 mm in height. The plate features a large vertical oval cutout on the left side, with a width of 48 mm and a height of 118 mm. A smaller horizontal oval cutout is located on the right side, with a width of 51 mm. The corners of the plate are rounded with a radius of R8. A small circular hole is visible on the right edge, with a center-to-center distance of 125 mm from the top edge. The drawing includes dashed lines indicating the center of the oval cutouts and the R8 corner radii.
